

# National Curriculum: Progression in Mathematics

	Nursery (30-50months)	Foundation (40-60 months)
Numbers	<ul style="list-style-type: none"> <li>-Uses some number names and number language spontaneously.</li> <li>-Uses some number names accurately in play.</li> <li>-Recites numbers in order to 10. 24</li> <li>-Knows that numbers identify how many objects are in a set.</li> <li>-Beginning to represent numbers using fingers, marks on paper or pictures.</li> <li>-Sometimes matches numeral and quantity correctly.</li> <li>-Shows curiosity about numbers by offering comments or asking questions.</li> <li>-Compares two groups of objects, saying when they have the same number.</li> <li>-Shows an interest in number problems.</li> <li>-Separates a group of three or four objects in different ways, beginning to recognise that the total is still the same.</li> <li>-Shows an interest in numerals in the environment.</li> <li>-Shows an interest in representing numbers.</li> <li>-Realises not only objects, but anything can be counted, including steps, claps or jumps.</li> </ul>	<ul style="list-style-type: none"> <li>-Recognise some numerals of personal significance.</li> <li>-Recognises numerals 1 to 5.</li> <li>-Counts up to three or four objects by saying one number name for each item.</li> <li>-Counts actions or objects which cannot be moved.</li> <li>-Counts objects to 10, and beginning to count beyond 10.</li> <li>-Counts out up to six objects from a larger group.</li> <li>-Selects the correct numeral to represent 1 to 5, then 1 to 10 objects.</li> <li>-Counts an irregular arrangement of up to ten objects.</li> <li>-Estimates how many objects they can see and checks by counting them.</li> <li>-Uses the language of 'more' and 'fewer' to compare two sets of objects.</li> <li>-Finds the total number of items in two groups by counting all of them.</li> <li>-Says the number that is one more than a given number.</li> <li>-Finds one more or one less from a group of up to five objects, then ten objects.</li> <li>-In practical activities and discussion, beginning to use the vocabulary involved in adding and subtracting.</li> <li>-Records, using marks that they can interpret and explain.</li> <li>-Begins to identify own mathematical problems based on own interests and fascinations</li> </ul>
Shape, space and measures	<ul style="list-style-type: none"> <li>-Shows an interest in shape and space by playing with shapes or making arrangements with objects.</li> <li>-Shows awareness of similarities of shapes in the environment.</li> <li>-Uses positional language.</li> <li>-Shows interest in shape by sustained construction activity or by talking about shapes or arrangements.</li> <li>-Shows interest in shapes in the environment.</li> <li>-Uses shapes appropriately for tasks.</li> <li>-Beginning to talk about the shapes of everyday objects, e.g. 'round' and 'tall'.</li> </ul>	<ul style="list-style-type: none"> <li>-Beginning to use mathematical names for 'solid' 3D shapes and 'flat' 2-D shapes, and mathematical terms to describe shapes.</li> <li>-Selects a particular named shape.</li> <li>-Can describe their relative position such as 'behind' or 'next to'.</li> <li>-Orders two or three items by length or height.</li> <li>-Orders two items by weight or capacity.</li> <li>-Uses familiar objects and common shapes to create and recreate patterns and build models.</li> <li>-Uses everyday language related to time.</li> <li>-Beginning to use everyday language related to money.</li> <li>-Orders and sequences familiar events.</li> <li>-Measures short periods of time in simple ways.</li> </ul>

# Lower Phase

	Year 1	Year 2	Year 3
Number - Place Value	<p>-count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number</p> <p>-count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens</p> <p>-given a number, identify one more and one less</p> <p>-identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to, more than, less than (fewer), most, least</p> <p>-read and write numbers from 1 to 20 in numerals and words.</p>	<p>-count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward</p> <p>-recognise the place value of each digit in a two-digit number (tens, ones)</p> <p>-identify, represent and estimate numbers using different representations, including the number line</p> <p>-compare and order numbers from 0 up to 100; use &lt;, &gt; and = signs</p> <p>-read and write numbers to at least 100 in numerals and in words</p> <p>-use place value and number facts to solve problems.</p>	<p>-count from 0 in multiples of 4, 8, 50 and 100; find 10 or 100 more or less than a given number</p> <p>-recognise the place value of each digit in a three-digit number (hundreds, tens, ones)</p> <p>-compare and order numbers up to 1000</p> <p>-identify, represent and estimate numbers using different representations</p> <p>-read and write numbers up to 1000 in numerals and in words</p> <p>-solve number problems and practical problems involving these ideas.</p>
Number (add, subtract, multiply and divide)	<p>-read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs</p> <p>-represent and use number bonds and related subtraction facts within 20</p> <p>-add and subtract one-digit and two-digit numbers to 20, including zero</p> <p>-solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as <math>7 = \square - 9</math>.</p> <p>-solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher</p>	<p>-solve problems with addition and subtraction:</p> <ul style="list-style-type: none"> <li>• using concrete objects and pictorial representations, including those involving numbers, quantities and measures</li> <li>• applying their increasing knowledge of mental and written methods</li> </ul> <p>-recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100</p> <p>-add and subtract numbers using concrete objects, pictorial representations, and mentally, including:</p> <ul style="list-style-type: none"> <li>• a two-digit number and ones</li> <li>• a two-digit number and tens</li> <li>• two two-digit numbers</li> <li>• adding three one-digit numbers</li> </ul> <p>-show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot</p> <p>-recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.</p> <p>-recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers</p> <p>-calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (<math>\times</math>), division (<math>\div</math>) and equals (=) signs</p> <p>-show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot</p>	<p>-add and subtract numbers mentally, including:</p> <ul style="list-style-type: none"> <li>• a three-digit number and ones</li> <li>• a three-digit number and tens</li> <li>• a three-digit number and hundreds</li> </ul> <p>-add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction</p> <p>-estimate the answer to a calculation and use inverse operations to check answers</p> <p>-solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.</p> <p>-recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables</p> <p>-write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods</p> <p>-solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects.</p>

		-solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts	
Number (Fractions)	-recognise, find and name a half as one of two equal parts of an object, shape or quantity -recognise, find and name a quarter as one of four equal parts of an object, shape or quantity.	-recognise, find, name and write fractions $\frac{3}{1}$ , $\frac{4}{1}$ , $\frac{4}{2}$ and $\frac{4}{3}$ of a length, shape, set of objects or quantity -write simple fractions for example, $2 \frac{1}{6} = \frac{13}{6}$ and recognise the equivalence of $\frac{4}{2}$ and $\frac{2}{1}$ .	-count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10 -recognise, find and write fractions of a discrete set of objects: unit fractions and nonunit fractions with small denominators -recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators -recognise and show, using diagrams, equivalent fractions with small denominators -add and subtract fractions with the same denominator within one whole [for example, $7 \frac{5}{6} + 7 \frac{1}{6} = 7 \frac{6}{6}$ ] -compare and order unit fractions, and fractions with the same denominators -solve problems that involve all of the above.
Measurement	-compare, describe and solve practical problems for: <ul style="list-style-type: none"> <li>lengths and heights [for example, long/short, longer/shorter, tall/short, double/half]</li> <li>mass/weight [for example, heavy/light, heavier than, lighter than]</li> <li>capacity and volume [for example, full/empty, more than, less than, half, half full, quarter]</li> <li>time [for example, quicker, slower, earlier, later]</li> </ul> -measure and begin to record the following: <ul style="list-style-type: none"> <li>lengths and heights</li> <li>mass/weight</li> <li>capacity and volume</li> <li>time (hours, minutes, seconds)</li> </ul> -recognise and know the value of different denominations of coins and notes -sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening] -recognise and use language relating to dates, including days of the week, weeks, months and years -tell the time to the hour and half past the hour and draw the hands on a clock face to show these times.	-choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels -compare and order lengths, mass, volume/capacity and record the results using >, < and = -recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value -find different combinations of coins that equal the same amounts of money -solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change -compare and sequence intervals of time -tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times -know the number of minutes in an hour and the number of hours in a day.	-measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml) -measure the perimeter of simple 2-D shapes -add and subtract amounts of money to give change, using both £ and p in practical contexts -tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks -estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight -know the number of seconds in a minute and the number of days in each month, year and leap year -compare durations of events [for example to calculate the time taken by particular events or tasks].

<p>Geometry</p>	<p>-recognise and name common 2-D and 3-D shapes, including:</p> <ul style="list-style-type: none"> <li>• 2-D shapes [for example, rectangles (including squares), circles and triangles]</li> <li>• 3-D shapes [for example, cuboids (including cubes), pyramids and spheres].</li> </ul> <p>-describe position, direction and movement, including whole, half, quarter and three-quarter turns.</p>	<p>-identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line</p> <p>-identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces</p> <p>-identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]</p> <p>-compare and sort common 2-D and 3-D shapes and everyday objects.</p> <p>-order and arrange combinations of mathematical objects in patterns and sequences</p> <p>-use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anticlockwise).</p>	<p>-draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them</p> <p>-recognise angles as a property of shape or a description of a turn</p> <p>-identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle</p> <p>-identify horizontal and vertical lines and pairs of perpendicular and parallel lines.</p>
<p>Statistics</p>		<p>-interpret and construct simple pictograms, tally charts, block diagrams and simple tables</p> <p>-ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity</p> <p>-ask and answer questions about totalling and comparing categorical data.</p>	<p>-interpret and present data using bar charts, pictograms and tables</p> <p>-solve one-step and two-step questions [for example, 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.</p>
<p>Ratio and Proportion</p>			
<p>Algebra</p>			

# Upper Phase

	Year 4	Year 5	Year 6
Number - Place Value	<ul style="list-style-type: none"> <li>-count in multiples of 6, 7, 9, 25 and 1000</li> <li>-find 1000 more or less than a given number</li> <li>-count backwards through zero to include negative numbers</li> <li>-recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones)</li> <li>-order and compare numbers beyond 1000</li> <li>-identify, represent and estimate numbers using different representations</li> <li>-round any number to the nearest 10, 100 or 1000</li> <li>-solve number and practical problems that involve all of the above and with increasingly large positive numbers</li> <li>-read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.</li> </ul>	<ul style="list-style-type: none"> <li>-read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit</li> <li>-count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000</li> <li>-interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero</li> <li>-round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000</li> <li>-solve number problems and practical problems that involve all of the above</li> <li>-read Roman numerals to 1000 (M) and recognise years written in Roman numerals.</li> </ul>	<ul style="list-style-type: none"> <li>-read, write, order and compare numbers up to 10 000 000 and determine the value of each digit</li> <li>-round any whole number to a required degree of accuracy</li> <li>-use negative numbers in context, and calculate intervals across zero</li> <li>-solve number and practical problems that involve all of the above.</li> </ul>
Number (add, subtract, multiply and divide)	<ul style="list-style-type: none"> <li>-add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate</li> <li>-estimate and use inverse operations to check answers to a calculation</li> <li>-solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why</li> <li>-recall multiplication and division facts for multiplication tables up to <math>12 \times 12</math></li> <li>-use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers</li> <li>-recognise and use factor pairs and commutativity in mental calculations</li> <li>-multiply two-digit and three-digit numbers by a one-digit number using formal written layout</li> <li>-solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects.</li> </ul>	<ul style="list-style-type: none"> <li>-add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)</li> <li>-add and subtract numbers mentally with increasingly large numbers</li> <li>-use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy</li> <li>-solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.</li> <li>-identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers</li> <li>-know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers</li> <li>-establish whether a number up to 100 is prime and recall prime numbers up to 19</li> <li>-multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers</li> <li>-multiply and divide numbers mentally drawing upon known facts</li> <li>-divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context</li> <li>-multiply and divide whole numbers and those involving decimals by 10, 100 and 1000</li> </ul>	<ul style="list-style-type: none"> <li>-multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication</li> <li>-divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context</li> <li>-divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to the context</li> <li>-perform mental calculations, including with mixed operations and large numbers</li> <li>-identify common factors, common multiples and prime numbers</li> <li>-use their knowledge of the order of operations to carry out calculations involving the four operations</li> <li>-solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why</li> <li>-solve problems involving addition, subtraction, multiplication and division</li> <li>-use estimation to check answers to calculations and determine, in the context of a problem, an appropriate degree of accuracy.</li> </ul>

		<ul style="list-style-type: none"> <li>-recognise and use square numbers and cube numbers, and the notation for squared ( 2 ) and cubed ( 3 )</li> <li>-solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes</li> <li>-solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign</li> <li>-solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates.</li> </ul>	
Number (Fractions - including decimals and percentages)	<ul style="list-style-type: none"> <li>-recognise and show, using diagrams, families of common equivalent fractions</li> <li>-count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten.</li> <li>-solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number</li> <li>-add and subtract fractions with the same denominator</li> <li>-recognise and write decimal equivalents of any number of tenths or hundredths</li> <li>-recognise and write decimal equivalents to <math>4 \frac{1}{10}</math>, <math>2 \frac{1}{10}</math>, <math>4 \frac{3}{10}</math></li> <li>-find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths</li> <li>-round decimals with one decimal place to the nearest whole number</li> <li>-compare numbers with the same number of decimal places up to two decimal places</li> <li>-solve simple measure and money problems involving fractions and decimals to two decimal places.</li> </ul>	<ul style="list-style-type: none"> <li>-compare and order fractions whose denominators are all multiples of the same number</li> <li>-identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths</li> <li>-recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements <math>&gt; 1</math> as a mixed number [for example, <math>5 \frac{2}{10} + 5 \frac{4}{10} = 5 \frac{6}{10} = 1 \frac{5}{10}</math>]</li> <li>-add and subtract fractions with the same denominator and denominators that are multiples of the same number</li> <li>-multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams</li> <li>-read and write decimal numbers as fractions [for example, <math>0.71 = \frac{71}{100}</math>]</li> <li>-recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents</li> <li>-round decimals with two decimal places to the nearest whole number and to one decimal place</li> <li>-read, write, order and compare numbers with up to three decimal places</li> <li>-solve problems involving number up to three decimal places</li> <li>-recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal</li> <li>-solve problems which require knowing percentage and decimal equivalents of <math>2 \frac{1}{10}</math>, <math>4 \frac{1}{10}</math>, <math>5 \frac{1}{10}</math>, <math>5 \frac{2}{10}</math>, <math>5 \frac{4}{10}</math> and those fractions with a denominator of a multiple of 10 or 25</li> </ul>	<ul style="list-style-type: none"> <li>-use common factors to simplify fractions; use common multiples to express fractions in the same denomination</li> <li>-compare and order fractions, including fractions <math>&gt; 1</math></li> <li>-add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions</li> <li>-multiply simple pairs of proper fractions, writing the answer in its simplest form [for example, <math>4 \frac{1}{10} \times 2 \frac{1}{10} = 8 \frac{1}{10}</math>]</li> <li>-divide proper fractions by whole numbers [for example, <math>3 \frac{1}{10} \div 2 = 6 \frac{1}{10}</math>]</li> <li>-associate a fraction with division and calculate decimal fraction equivalents [for example, <math>0.375</math>] for a simple fraction [for example, <math>8 \frac{3}{10}</math>]</li> <li>-identify the value of each digit in numbers given to three decimal places and multiply and divide numbers by 10, 100 and 1000 giving answers up to three decimal places</li> <li>-multiply one-digit numbers with up to two decimal places by whole numbers</li> <li>- use written division methods in cases where the answer has up to two decimal places</li> <li>-solve problems which require answers to be rounded to specified degrees of accuracy</li> <li>-recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.</li> </ul>
Measurement	<ul style="list-style-type: none"> <li>-Convert between different units of measure [for example, kilometre to metre; hour to minute]</li> <li>-measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres</li> <li>-find the area of rectilinear shapes by counting squares</li> <li>-estimate, compare and calculate different measures, including money in pounds and pence</li> </ul>	<ul style="list-style-type: none"> <li>-convert between different units of metric measure (for example, kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)</li> <li>-understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints</li> </ul>	<ul style="list-style-type: none"> <li>-solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate</li> <li>-use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and</li> </ul>

	<p>-read, write and convert time between analogue and digital 12- and 24-hour clocks</p> <p>-solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days</p>	<p>-measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres</p> <p>-calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres (cm<sup>2</sup>) and square metres (m<sup>2</sup>) and estimate the area of irregular shapes</p> <p>-estimate volume [for example, using 1 cm<sup>3</sup> blocks to build cuboids (including cubes)] and capacity [for example, using water]</p> <p>-solve problems involving converting between units of time</p> <p>-use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling.</p>	<p>vice versa, using decimal notation to up to three decimal places</p> <p>-convert between miles and kilometres</p> <p>-recognise that shapes with the same areas can have different perimeters and vice versa</p> <p>-recognise when it is possible to use formulae for area and volume of shapes</p> <p>-calculate the area of parallelograms and triangles</p> <p>-calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm<sup>3</sup>)</p>
<p>Geometry (properties of shape and position and direction)</p>	<p>-compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes</p> <p>-identify acute and obtuse angles and compare and order angles up to two right angles by size</p> <p>-identify lines of symmetry in 2-D shapes presented in different orientations</p> <p>-complete a simple symmetric figure with respect to a specific line of symmetry.</p> <p>-describe positions on a 2-D grid as coordinates in the first quadrant</p> <p>-describe movements between positions as translations of a given unit to the left/right and up/down</p> <p>-plot specified points and draw sides to complete a given polygon.</p>	<p>-identify 3-D shapes, including cubes and other cuboids, from 2-D representations</p> <p>-know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles</p> <p>-draw given angles, and measure them in degrees (°)</p> <p>-identify:</p> <ul style="list-style-type: none"> <li>• angles at a point and one whole turn (total 360°)</li> <li>• angles at a point on a straight line and 2 1 a turn (total 180°)</li> <li>• other multiples of 90°</li> </ul> <p>-use the properties of rectangles to deduce related facts and find missing lengths and angles</p> <p>-distinguish between regular and irregular polygons based on reasoning about equal sides and angles.</p> <p>-identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.</p>	<p>-draw 2-D shapes using given dimensions and angles</p> <p>-recognise, describe and build simple 3-D shapes, including making nets</p> <p>-compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons</p> <p>-illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius</p> <p>-recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles.</p> <p>-describe positions on the full coordinate grid (all four quadrants)</p> <p>-draw and translate simple shapes on the coordinate plane, and reflect them in the axes.</p>
<p>Statistics</p>	<p>-interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.</p> <p>-solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.</p>	<p>-solve comparison, sum and difference problems using information presented in a line graph</p> <p>-complete, read and interpret information in tables, including timetables.</p>	<p>-interpret and construct pie charts and line graphs and use these to solve problems</p> <p>-calculate and interpret the mean as an average.</p>
<p>Ratio and Proportion</p>			<p>solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts</p> <p>-solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison</p> <p>-solve problems involving similar shapes where the scale factor is known or can be found</p> <p>-solve problems involving unequal sharing and grouping using knowledge of fractions and multiples.</p>

Algebra			-use simple formulae -generate and describe linear number sequences -express missing number problems algebraically -find pairs of numbers that satisfy an equation with two unknowns -enumerate possibilities of combinations of two variables.
---------	--	--	---
